

VISULINE

Your rooms. Your interface.

Images and controls are tailored to your wishes.

Local design study · No installation connected

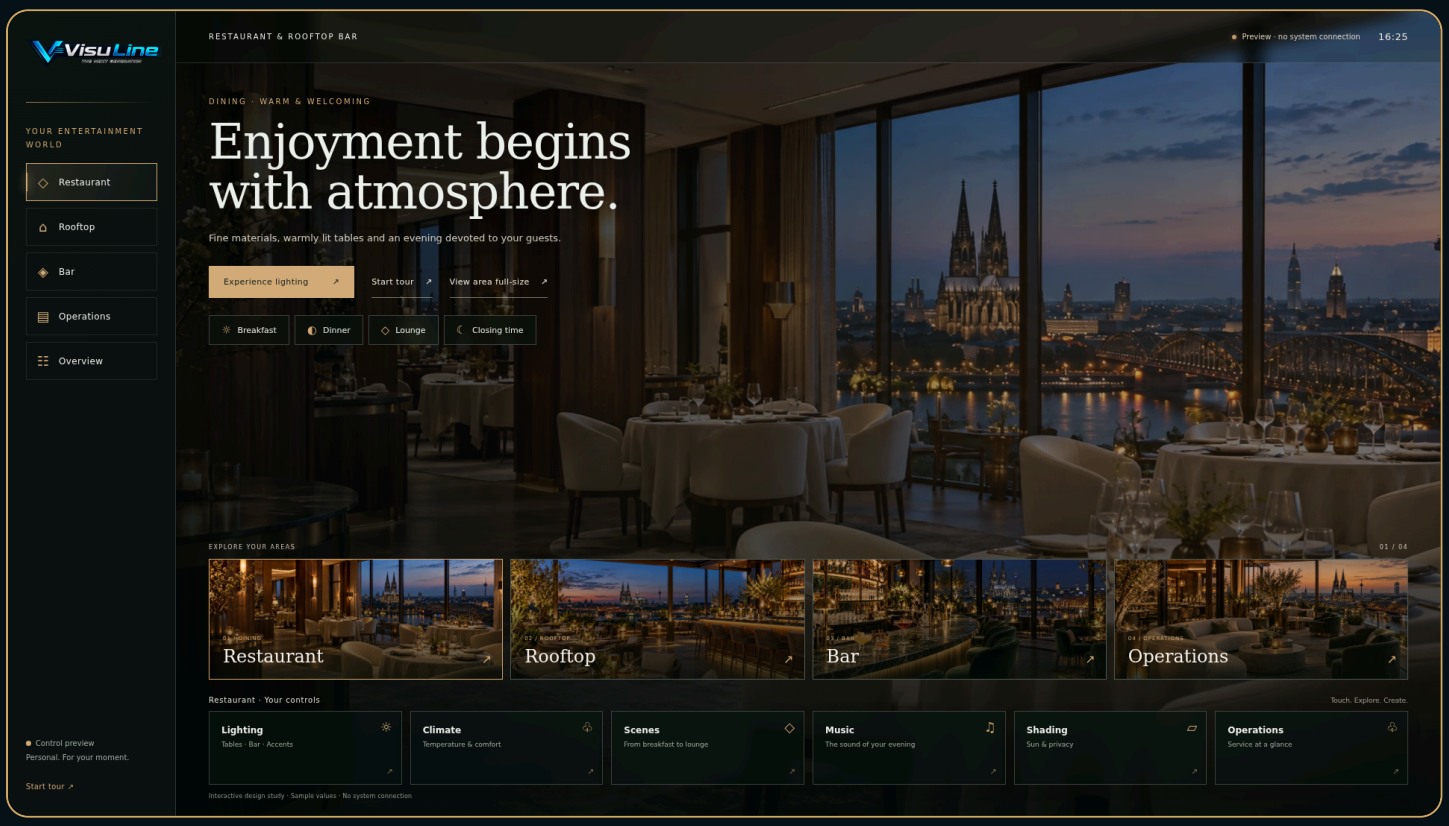

01 / HTML5 · CRESTRON

Enjoyment begins with atmosphere.

Restaurant and Rooftop Bar come together in an individual HTML five interface for Crestron.

ORIGINAL CONTROL INTERFACE

EN

01

Experience

Original images, clear navigation and visible sequences make technology easy to understand.

02

Control

This design study shows a selection of the possibilities.

03

Individual

All actions remain a local preview without connection to a real installation.

Local design study · No installation connected

02 / HTML5 · CRESTRON

From daylight to dinner.

See the transformation directly in the restaurant scene.

ORIGINAL CONTROL INTERFACE

EN

01

Experience

The lights dim and both window shades move down.

02

Control

Left and right can be controlled separately and stopped during movement.

03

Individual

The Dinner sequence brings these steps together for a pleasant evening atmosphere.

Local design study · No installation connected

03 / HTML5 · CRESTRON

Above the rooftops. In the moment.

The rooftop gives the evening a stage of its own.

ORIGINAL CONTROL INTERFACE

EN

01

Experience

Shading moves against the city skyline. Lighting and atmosphere visibly change.

02

Control

The view remains clear while the compact control bar keeps important functions within reach.

03

Individual

One touch opens the view again.

Local design study · No installation connected

04 / HTML5 · CRESTRON

Light and sound in your favourite place.

Shape light and sound in the bar to suit your wishes.

ORIGINAL CONTROL INTERFACE

EN

01

Experience

Brightness changes the room scene. Music style, volume and pause are directly accessible.

02

Control

A silent sound animation visualises your selection.

03

Individual

The lounge and operations area also have their own scenes.

Local design study · No installation connected

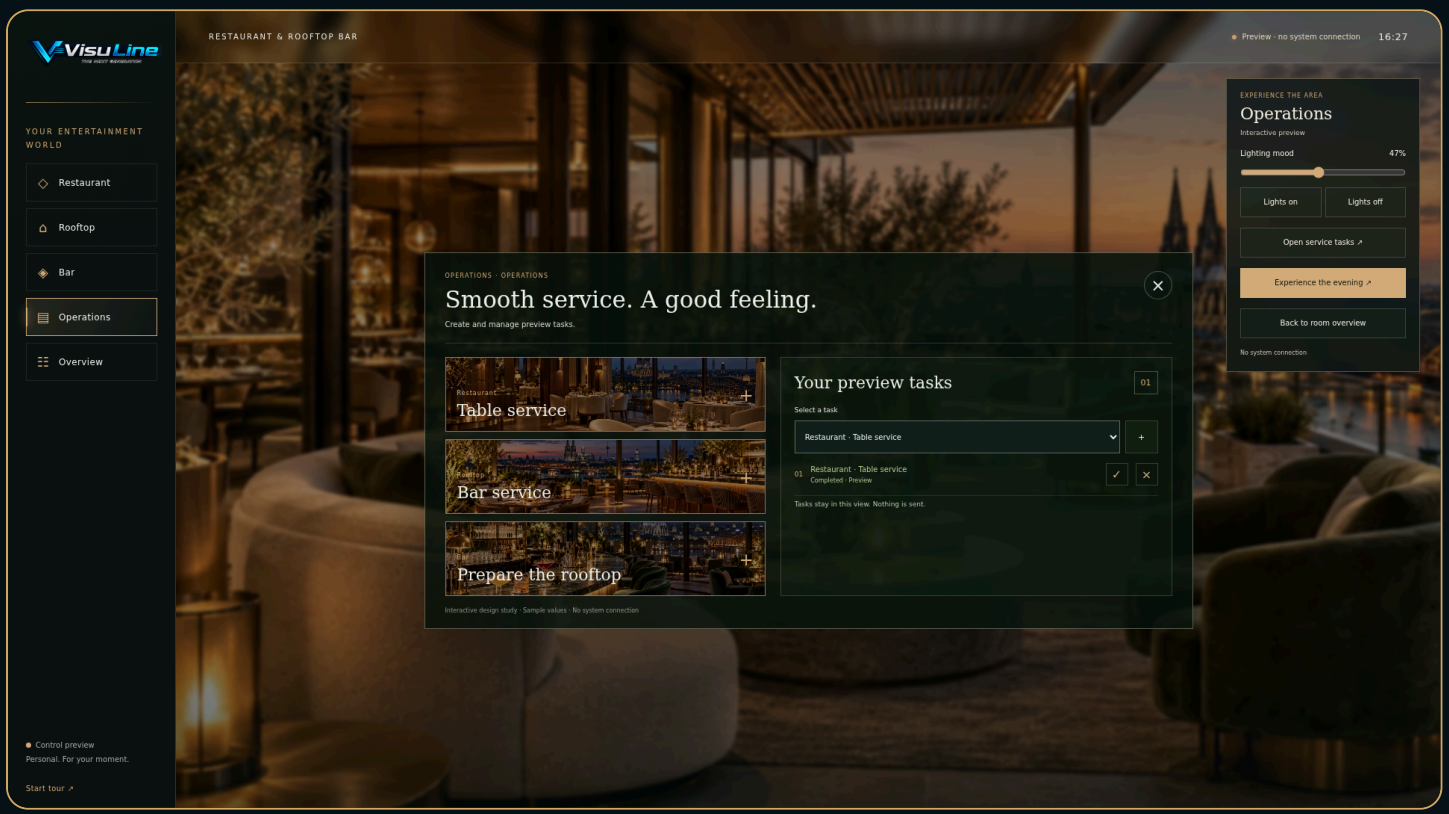

05 / HTML5 · CRESTRON

A smooth service feels effortless.

Table service, bar service or preparing the rooftop: tasks can be created and managed in the operations area.

ORIGINAL CONTROL INTERFACE

EN

01

Experience

Their status moves from queued to in progress to completed.

02

Control

This list stays local in the preview and does not send orders.

Local design study · No installation connected

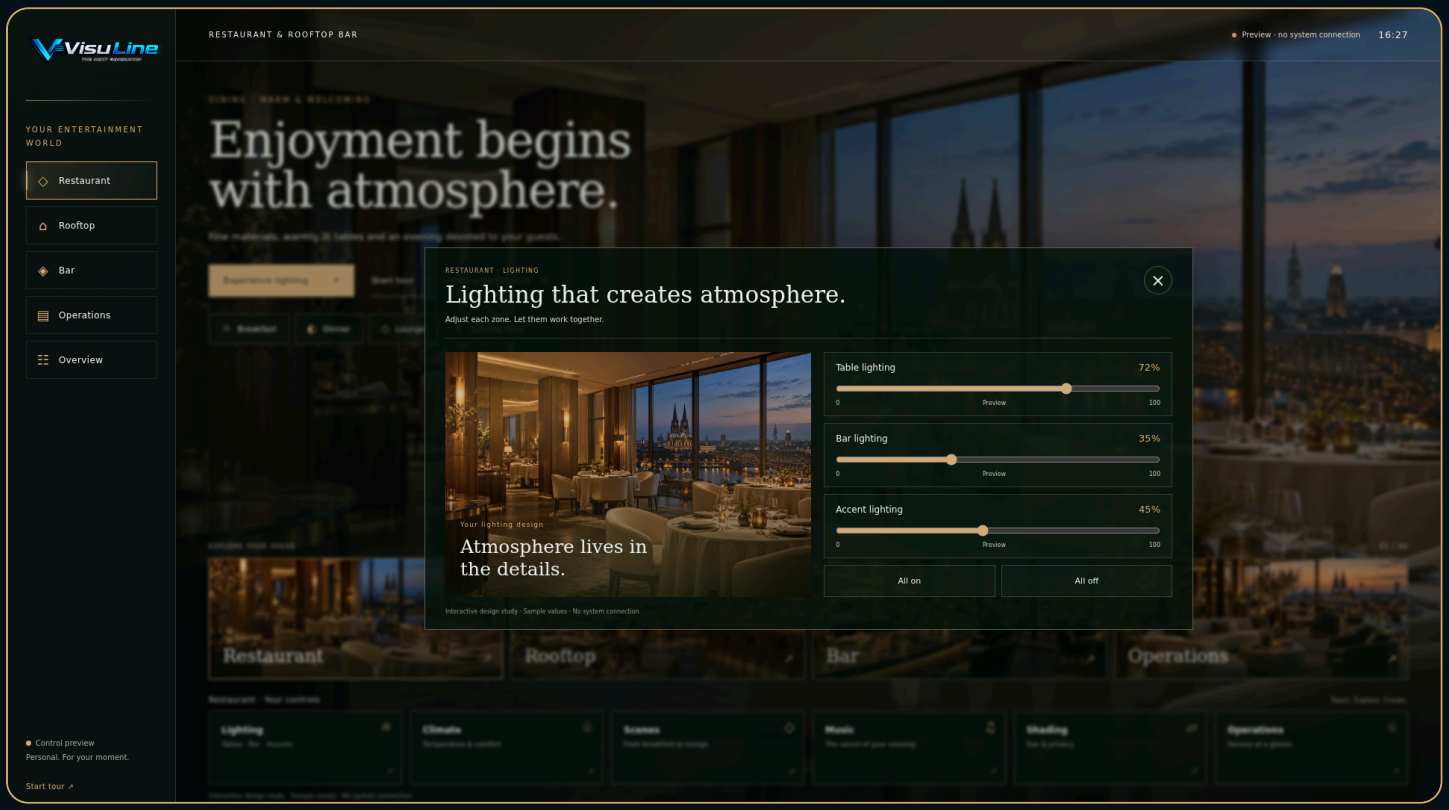

06 / HTML5 · CRESTRON

Comfort in every area.

Lighting zones, preferred temperature, operating mode and scenes are arranged in clear control windows.

ORIGINAL CONTROL INTERFACE

EN

01

Experience

Each area keeps its own settings.

02

Control

Without a connected sensor, the actual room temperature remains unknown.

03

Individual

Images, colours and sequences will be tailored to your wishes.

Local design study · No installation connected

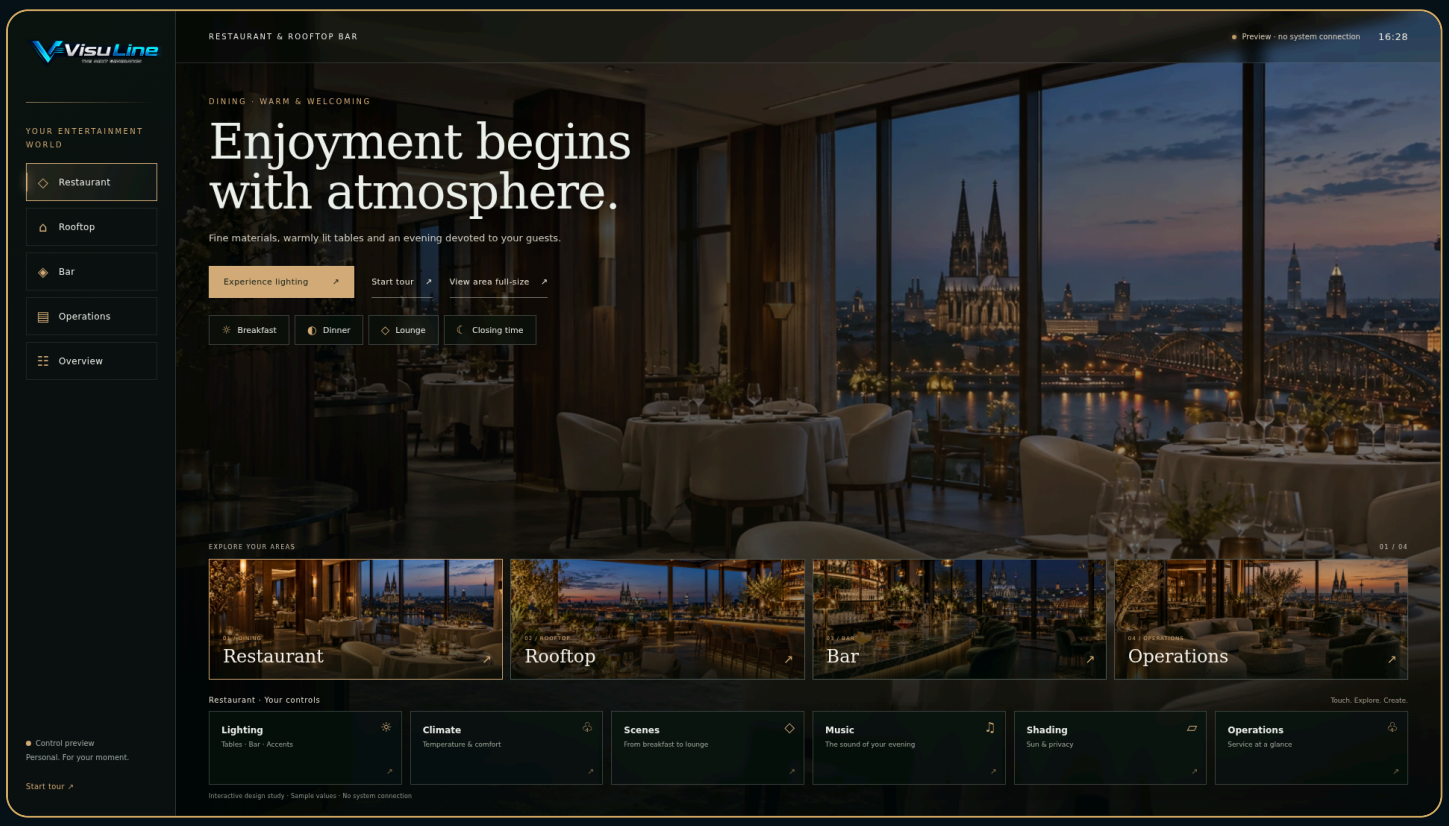

07 / HTML5 · CRESTRON

Your rooms. Your interface.

X Panel, touchpanel and T S W eight eighty share the same responsive interface.

ORIGINAL CONTROL INTERFACE

EN

01

Experience

Navigation and functions remain accessible.

02

Control

For real operation, devices, feedback and joins are integrated and tested for each customer.

03

Individual

We look forward to designing your own project with you.
